

Volvo - Volvo Penta TAMD41P 200hp Marine Diesel Engine
£ 7,495

Description

Volvo Penta TAMD41-P 200hp Six Cylinder Turbo Aftercooled Heat Exchanger Cooled Bobtail Marine Diesel Engine. Removed from a decommissioned fast rescue craft where it was coupled to a water jet drive. Low hours circa 400hrs from new. Starts instantly from cold and runs very cleanly indeed. The only faults identified during testing were a leaking plastic expansion bottle and missing electrical box cover. The electrical cover has been replaced with a good used unit and the expansion bottle has been replaced with a brand new one from Volvo. A video of the engine running prior to these items being replaced can be viewed at the following link: https://youtu.be/llHvw_csfKfY The Borg Warner direct drive gearbox in the videos can be made available at extra cost or can be supplied fitted with a sterndrive trumpet housing to suit 280/290 Volvo sterndrive if required. The engine will shortly be fully serviced, cleaned and repainted, ready for re-sale. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. For further information, please contact our office on 01935 83876

Sales status: available

Manufacturer: Volvo

Model: Volvo Penta TAMD41P 200hp Marine Diesel Engine
