Mermaid Marine

£ 5,350

Description

JCB Mermaid J444-NA63 85hp Marine Diesel Engine 2018 (PAIR AVAILABLE) JCB Mermaid J444-NA-63 85hp Four Cylinder Heat Exchanger Cooled Marine Diesel Engine With Control Panel & Wiring Harness. Matching Pair Available. Not likely to see this again! A very nice pair of JCB Mermaid engines built and delivered in 2018 that were only installed for a few years before being switched for larger engines earlier this year due to the role of the vessel changing. Running hours just under 2000 from new. Currently offered as engines with instruments only. The original gearboxes were re-deployed onto the customer's new engines. We can however offer a wide range of new and used gearboxes if required. Electrics are 24V. The retail price of each engine ex gearbox was over £10,000 + VAT each when new. Now offered for the bargain price of £5350 + VAT per unit. The engines have been test run and serviced by our workshops and found to be in excellent order as would be expected from engines that haven't even done two years in service. Masses of torque from these 4.4L units producing 85hp at only 2200rpm. The fuel systems are mechanical so no complicated wiring, commonrail injection or ECU to worry about. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Part exchange very welcome. Please call our office on 01935 83876 for further details.
