

**Bukh - DV24 24hp Marine Diesel Engine Package**  
**VERY LOW HOURS!!**

£ 3,095

**Description**

Bukh DV24 24hp Twin Cylinder Marine Diesel Engine Package Including Gearbox, Control Panel & Loom. Drop in replacement for the older and well known Bukh DV20. This is the current model, and still sold today, with new units costing in excess of £8,000! We have a selection of these units available, all removed from ships lifeboats and as such all have run less than 250hrs from new and been very well maintained. In many cases these engines will have run less than 100hrs from new!! They have also been running on closed circuit cooling so have never even tasted salt water. They have been converted back to the more common sea water cooling system in our UK workshops using original Bukh parts. They have all been test run in our workshops, serviced, stripped, cleaned and resprayed in Bukh red and are ready to go to work. Part exchange always considered running or not. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call 07809 524834 for further details.
