

Bukh - DV 24

£ 2,350

Description

Bukh DV24 24hp Keel Cooled Narrowboat Engine Package Bukh DV24 24hp Twin Cylinder Keel Cooled Marine Diesel Engine Package Including Gearbox, Control Panel & Loom. Propellers, shafts and couplings to suit are also available. Also the drop in replacement for the older and well known Bukh DV20. This is the current model, and still sold today, with new units costing in excess of £8,000! We have a selection of these units available, all removed from ships lifeboats and as such all have run less than 250hrs from new and been very well maintained. In many cases these engines will have run less than 100hrs from new!! They have also been running on closed circuit cooling so have never even tasted salt water. These engines are specially built for skin tank and keel cooling systems so make ideal replacement engines for narrowboats, offering a traditional engine design and yet still a current model engine at a fraction of the new cost. They have all been test run in our workshops, serviced, stripped, cleaned and resprayed in Bukh red and are ready to go to work. Part exchange always considered running or not. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call 01935 83876 for further details.
