

Volvo - D1-13
£ 2,795

Description

Volvo Penta D1-13B 13hp Marine Diesel Engine Package Volvo Penta D1-13B 13hp Twin Cylinder Heat Exchanger Cooled Marine Diesel Engine Package With Volvo MS10L Gearbox, Control Panel, Extension Loom and Flexible Mounts. Can also be made available with a good used Volvo Penta 130S Saildrive in place of gearbox at extra cost. This engine was supplied by us new in 2007 to a local yacht club for their security patrol launch. The throttle was locked at 2000rpm when it was installed to prevent over revving the engine and it has been maintained on a weekly basis during the summer and laid up during the winter so has been well looked after. We have now donated them a brand new unit as the boat is undergoing a major refit so the original engine is now available for sale. Running hours are around 2000 from new and has spent all its life in a fresh water river so the cooling system is in excellent order and corrosion free. In use up until last week of February 2019 and performing perfectly when removed. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost, Please call 01935 83876 for further details.

Sales status: available

Manufacturer: Volvo
