

**Nanni - Nanni 4.220HE 50hp Marine Diesel Engine
Package - Pair Available**

£ 4,495

Description

Nanni 4.220HE 40hp Four Cylinder Heat Exchanger Cooled Marine Diesel Engine Package With PRM 160 3:1 Hydraulic Gearbox. Perfect for replacing old Perkins 4107 & 4108, BMC 1500 & 1800 etc. We have two of these units available, removed as part of a planned upgrade and in very good running order when removed. They have spent their life working in fresh water so corrosion free and in good shape. The base engine for these is from the

very well respected Kubota. These two units were fitted new in approx. 2002 and have run approx. 3000hrs so not a lot considering most industrial Kubota engines will manage 10,000hrs plus in excavators, forklifts and generators. The PRM hydraulic gearboxes are older than the engines but have been on these engines from new and are both in good working order. Tested in our workshops where they started instantly from cold with clean exhausts, good water flow and no faults observed whilst on test. Cleaned, painted and serviced, ready to be installed. There is currently no instrumentation with these engines but new aftermarket replacement wiring looms and control panels can be supplied for £300 per engine. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call 01935 83876 for further details.
