

Vetus - Vetus M3.10 22hp Marine Diesel Engine Package

£ 1,995

Description

Vetus M3.10 22hp Three Cylinder Heat Exchanger Cooled Marine Diesel Engine Complete With Gearbox, Control Panel, Wiring Loom & Flexible Mountings. This was removed during the repower of a catamaran and was originally attached to a Selva saildrive which was failing and parts unavailable to repair so the entire package was replaced. Our workshops have fitted the engine with original specification rear mountings, adaptor plate and Hurth HBW100 gearbox to convert the engine back to a standard shaft drive model. Running hours are only 1400 from new and a new heat exchanger assembly was fitted only 50 running hours ago. Based on the well known Mitsubishi K series base engine, this would make a super engine for a sailing yacht or small launch repower. Fully tested and serviced at our workshops, ready for a new owner. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call 01935 83876 for further details.
