Doosan - Doosan L136Ti 230hp Bobtail Marine Diesel Engine

£ 6,995

Description

Doosan L136Ti 230hp Six Cylinder Turbo lintercooled Heat Exchanger Cooled Marine Diesel Engine With Control Panel & Wiring Loom. Build Year 2009 Removed from a decommissioned workboat in 2017 in full working order and retained as a spare until recently. Starts and runs well. Good oil pressure and no crankcase pressure at all. Running hours reported as 2700 but the engine did not come to us with its original control panel so this cannot be verified. Prior to being removed from service the engine was fitted with recon injectors, new coolant circulating pump and rebuilt sea water pump. A video of the engine running can be viewed at the following link: <https://www.youtube.com/watch?v=IQ4se-9KnZo> It has now been serviced and repainted, ready for work. Shipping can be arranged anywhere in the UK or Worldwide at buyers cost. Please call 0193583878 for further details.
